

Dental Tips for Adults

- **Tooth decay, gum disease, tooth loss, and oral cancer.**
- You can prevent all of these ailments with a regular visit to your dentist.
- **My name is Janet Olszewski and I am the Director for the Michigan Department of Community Health.**
- Did you know that every hour, someone in the United States dies from oral cancer?
- **A regular visit to the dentist not only save your smile, but it can also save your life.**
- Good dental health can also help keep other diseases, like diabetes, in check.
- **Schedule a visit to your dentist today.**
